

Green House Gas Control Technology Conference

Arijit Das

Ph.d Scholar

Jawaharlal Nehru University

Educational Background

- Ph.d from Jawaharlal Nehru University, New Delhi.
- M.phil from Jawaharlal Nehru University, New Delhi.
- M.Sc in Economics from University of Calcutta, Calcutta.

Research Interests

- Environmental Economics, Institutional Economics, Collective Action.
- Governance of ecosystem.
- Experimental Economics

Current Research

- My Ph.d topic is collective action among the villagers in mid-Himalayan region to protect common property forests.
- My objective is to find out how the collective action can bring down green house gas emission.
- Factors plays important role in collective action.
- Initial results suggests that degree of cooperation is very low among the villagers.
