

Welcome to PCC2

Dr John Topper

*Managing Director of the company
operating the*

*IEA Greenhouse Gas R&D
Programme*

September 2013

IEA Greenhouse Gas R&D Programme

A collaborative research programme founded in 1991 as an IEA Implementing Agreement fully financed by its members

Aim: Provide members with definitive information on the role that technology can play in reducing greenhouse gas emissions.

Scope: All greenhouse gases, all fossil fuels and comparative assessments of technology options

Focus: On CCS in recent years

Producing information that is:

- Objective, trustworthy, independent
- Policy relevant but NOT policy prescriptive
- Reviewed by external Expert Reviewers
- Subject to review of policy implications by Members

Partner Organisations:

IEAGHG Activities

- Task 1: Evaluation of technology options
 - Based on a standard methodology to allow direct comparisons and are peer reviewed
- Task 2: Facilitating implementation
 - Provision of “evidence based information”
- Task 3: Facilitating international co-operation
 - Knowledge transfer from existing, laboratory, pilot and commercial scale CCS projects globally
- Task 4: To disseminate the results as widely as possible.

Conferences

- GHGT-11
 - Premier International Technical Conference on greenhouse gas mitigation
 - Last conference November 2012, Kyoto, Japan
 - www.ghgt.info
 - Summary report in preparation
 - 1250 Delegates
- PCCC-2
 - Bergen, Norway September 17th -20th 2013. Hosts Gassnova
 - <http://www.ieaghg.org/index.php?/2nd-post-combustion-capture-conference.html>
- OCC-3
 - Ponferrada, Spain 9th -13th September 2013. Hosts CIUDEN
 - <http://www.ieaghg.org/index.php?/20120814317/3rd-oxyfuel-combustion-conference.html>
